

## Apex Partners LLC

### Electronic Health Record

**Apex Partners LLC** knows physicians, their practices and their needs. **Cerner** knows technology. That's why Apex and Cerner have teamed together to deliver an unmatched EHR solution for your practice.

#### The Apex Partnership

As your billing and practice management provider, Apex is dedicated to the success of your medical practice. Technology should make your life easier — not more complicated. Therefore, with the industry being fueled by incentives for Electronic Health Record (EHR) adoption, we are pleased to present to you Cerner's robust, affordable and proven Ambulatory EHR solution. Clients are enjoying superior results from the seamless integration between Cerner's EHR and the Apex billing system with its unique claims follow-up

process. This extraordinary combination will facilitate healthcare efficiency and the transformation of medical practices throughout the country.

#### Cerner Ambulatory

Cerner's Ambulatory EHR is ONC-ATCB 2011/2012 certified and designed to automate your practice and clinical functions throughout the day with seamless integration. The solution helps you gain a more complete picture of a patient's needs, information that helps ensure the best clinical outcome. The solution is designed with the following features to help you work more efficiently:

- Since Last Time offers a concise picture of what's new with a patient since his or her last visit.
- Structured and codified documentation facilitates

#### At a Glance

Cerner's intuitive Ambulatory EHR pulls patient chart details right into documentation eliminating redundancies and saving you time.

- Customizable on a per-user basis for provider, nurse or staff
- Clinical Summary screen provides a one-stop shop for pertinent patient information
- Actionable summary screen documents a patient diagnosis on the fly

Physician Quality Reporting System (PQRS) measures and other submissions.

- Clinical Summary screen allows you to view pertinent patient information, order and manage medications and labs, and document patient visits.

## Application Service Provider (ASP) Model

With Cerner's industry-leading Application Service Provider (ASP) model, you can access solutions anywhere via a high-speed Internet connection. Cerner hosts your data at a state-of-the-art data center and provides all maintenance, upgrades, support and training for your solutions. Cerner is ranked #1 by KLAS for its Application Hosting service.

## Integration Benefits

The integration of EHR data within the billing process is not a simple one. However without it, an EHR system has the potential to create more work for your practice while impeding the billing process. Cerner Ambulatory is fully integrated with our billing system. The integration of patient demographic, scheduling, and charge data is critical to an efficient workflow between your practice and Apex, thus providing you immediate value and maximized results.

Additional billing/EHR integration benefits:

- **Direct access** to medical records eliminates the need for you to pull, copy and send that data to our office.
- **Significant reduction** in the processing time of claims pending for medical records (i.e. workers comp, pre-existing, etc.) resulting in expedited reimbursements.
- **Access** to operative reports and office notes help maximize payments for claims that are underpaid or denied, and enable you to file appeals and reviews within an ever shrinking filing time limit.

## Too important to stay the same

Cerner eliminates error, variance and waste for health care providers and consumers around the world.

Our solutions optimize processes for organizations ranging from single-doctor practices to entire countries, for the pharmaceutical and medical device industries, and for the field as a whole.

As we enter our fourth decade, we remain focused on developing innovations that will improve your entire health experience. Health care is too important to stay the same, so we're changing the way people:

- Use and share information
- Pay for health and care
- Think about health

Join us as we work to make health care all it should be for your physician practice. For more information, please call 800.927.1024, or visit us online at [www.cerner.com/physicianpractice](http://www.cerner.com/physicianpractice), [Twitter.com/CernerPhysician](https://twitter.com/CernerPhysician) and [Facebook.com/CernerAmbulatory](https://facebook.com/CernerAmbulatory).

## Key Benefits

- Increased efficiency and access to information
- Minimized up-front and maintenance costs
- Easy installation, implementation and use
- Receive EHR stimulus incentives

The screenshot shows a clinical summary for a patient named Woon, James. The interface is organized into several panels:

- Medications (5):** Lists various drugs such as Ativan, Colace, Lamotrigine, and Sildenafil.
- Vitals:** A table showing vital signs over time, including BP (140/80), Temp (98.6), HR (77), Respiratory Rate (18), and Oxygen Saturation (99).
- Measurements (3):** Shows sodium level, potassium level, and chloride level.
- Results and Labs:** A table of lab results including sodium, potassium, chloride, and CO2 levels.
- Documents | Notes (10):** A list of recent notes and messages, including general messages and assessment forms.
- My Favorite Orders:** A section for frequently used orders, including medications like Acetaminophen, Advil, and Bactrim.

Our actionable clinical summary allows you to review, place orders and document the visit all from a single screen.
