

# Increase efficiency, access to information

## PowerWorks EMR

At Cerner, we believe technology should make your life easier—not more complicated. That's why we created a simple, affordable and proven solution called *PowerWorks™ EMR*.

With our intuitive electronic medical record, you won't need to make a large up-front investment or steep maintenance payments. You won't have to buy a lot of expensive hardware to get started. All you need is a personal computer and a high-speed Internet connection—Cerner will do the rest.

With *PowerWorks*, we host your data at our state-of-the-art data facility. The Cerner Technology Center offers 24 x 7 x 365 data support and uses the latest techniques to protect patient information.

We know what we're doing. Cerner, one of the world's largest healthcare information technology (HIT) companies, guarantees that your records will be available 99 percent of the time.

### We work like you work

In creating *PowerWorks EMR*, Cerner studied how clinicians like you work and structured the solution to help you practice more efficiently. With our solution, you can access complete clinical and administrative information with a minimal number of clicks. In fact, physicians who use our solution have seen the time they spend on paperwork drop by as much as two hours per day.

Our solution will help you gain a more complete picture of a patient's needs, information that helps ensure the best clinical outcome. We've designed the following features to help you work more efficiently:

- Since Last Time offers a concise picture of what's new with a patient since their last visit.
- This Visit gives a quick summary of why the patient is in your office.
- Sticky Notes incorporates personal patient information in the chart.
- Key Notifications triages results and orders by what is critical, abnormal and due.

### Key Benefits

- Increased efficiency and access to information
- Minimized up-front and maintenance costs
- Easy installation, implementation and use

### A consistent look and feel

In your practice, you'll find *PowerWorks EMR* intuitive and easy to use. If you use Cerner solutions in the hospital, you won't need to learn a whole new system. Our solutions have similar approaches to common tasks, a consistent look and feel that makes your life easier as you move from home, to office, to hospital.

### Data when and where you need it

We've built *PowerWorks EMR* on our unified *Cerner Millennium®* 2007 architecture. Our industry leading computing platform aggregates clinical and financial information from a variety of sources, including the hospital, lab and pharmacy.

With *Cerner Millennium*, you organize the data around the patient, not the encounter. Using this unique approach, clinicians access the most up-

### Solution at a Glance

Cerner offers our *PowerWorks EMR* solution for an affordable monthly fee. We guarantee your system will be up 99 percent of the time. Physicians who use Cerner's remote-hosted EMR have seen the time they spend on paper work drop by as much as two hours each day.

“I have on average an extra hour every day, which is an extra hour every day I have to spend with my family. You cannot put a dollar value on this time.”

to-date information when and where they need it—information they can use to make the most informed decisions possible.

Our architecture benefits from a cumulative research and development investment exceeding \$1.3 billion, and Cerner plans an additional \$1 billion over the next several years.

### A solid investment

An independent, nonprofit organization, the Certification Commission for Healthcare Information Technology (CCHIT), has certified *PowerChart*®, the foundation for *PowerWorks* EMR. Cerner's EMR was among the first in the industry to pass CCHIT's comprehensive tests of

functionality, interoperability and security. By looking to

CCHIT-certified products, you can be sure you're making a solid investment.

### Innovation and leadership

Cerner, the nation's leading supplier of HIT solutions, is the power behind *PowerWorks*. Around the world, health organizations ranging from single-doctor practices to entire countries turn to Cerner for our powerful, intuitive solutions that optimize clinical and financial outcomes. We offer clients a dedicated focus on healthcare, an end-to-end solution and service portfolio, and proven market leadership.

Through the consistent leadership of our three founders, Cerner has focused exclusively on healthcare for more than a quarter century. We meet today's healthcare complexity and challenges through innovation and leadership for more than 3,300 clients and 30,000 physicians every day.

Let us help you manage your practice efficiently and profitably. Call us for a personal consultation at 800.927.1024, or visit us at [www.cerner.com/powerworks](http://www.cerner.com/powerworks).

**Sticky Notes**

| Written By | Created Date/Time | Text                       |
|------------|-------------------|----------------------------|
| Locke, Sue | 1/5/2005 11:30    | Ask about brother's health |

**Communication From/About this Patient**

| Priority | From       | Subject        | Created Date/Time | Status |
|----------|------------|----------------|-------------------|--------|
| Routine  | Greer, Kim | Refill Request | 10/5/2005 13:25   | Opened |

**Reminders**

| Priority | Due Date/Time    | Subject                                      | Created Date/Time | Status |
|----------|------------------|--|-------------------|--------|
|          | 10/10/2005 14:00 | Ask for copy of weight loss and exercise log | 9/1/2005 09:23    | Opened |

**Vital Signs/Measurement**

| Measurement              | Value     | Date/Time        | Value     | Date/Time      |
|--------------------------|-----------|------------------|-----------|----------------|
| Temperature Oral         | 97.8 DegF | 10/10/2005 09:00 | 98.6 DegF | 4/4/2005 10:00 |
